2"	22"	28"
2.5"	23"	30"
3"	24"	31"
4"	25"	32"
5"	30"	33"
6"	34"	35"

Screwed or Beveled Connections

Flanged Connections

Notes:

- Blowdown Separator Floor Stand for models A-20, A-34 and A-56 are factory fabricated using 2" x 2" x 0.25" angle.
- Floor stands for A-14 models are factory fabricated using 1.5" x 1.5" x 0.25" angle.
- If an 18DF, 16DS, or 20AO Aftercooler is furnished with separator, see dimension chart above for height "A" or "B". Be sure sufficient height is available for the aftercooler and elbow, when required. (Dimensions in column A and B are determined by separator drain size, listed in column D.)
- Dimension "A" or "B" will always be 18" when a 5D drain mixer is supplied or when a separator is furnished without an aftercooler.
- Other heights available upon request.
